Subject: Cover on the Construction fence

Hi Amy
I removed most of the cover off the Constuction fence. I will remove the rest tomorrow. Please explain to everyone that this is a Constuction fence not a permanent fence. When I get the water mains up to Palos Verdes Dr for the fire hydrants that I have to install . Then I will install the permanent iron fence to match the existing fence at the the park area. This will run all the way down to the subdivision entrance. I hope this helps explain what I am doing. And with out the cover you see right through the fence.

This is my email address that you should use I don’t know how you got the other one please use this one moving forward.

Thank You Scott Campbell
